**Project Description:** A \$25 million fund is being established over a 10-year period to restore habitats suitable for LCR MSCP covered species in the planning areas that have become degraded since the LCR MSCP was initiated. Funding during the initial five years of the program was established at \$500,000 per year. Funding in years 6-10 of the program was established at \$5,000,000 per year. Both values are indexed to 2003 dollars and adjusted annually for inflation. The degraded habitat condition targeted by this fund is that which occurs because of past LCR operations and maintenance actions that continue into the future. The habitat maintenance fund will be administered by the Program Manager. The process for determining degradation in habitat value as well as how funds are requested, disbursed, and tracked will be defined and refined with the assistance of the Steering Committee.

**Previous Activities:** This was a new start in FY06.

**FY09 Accomplishments:** A total of \$605,000 was deposited into interest-bearing accounts among the Arizona, California, and Nevada partners. The total dollar value of the fund at the end of FY09, with interest, was \$2,552,586.47.

**FY10 Activities:** A total of \$647,000 will be deposited into interest-bearing accounts among Arizona, California, and Nevada partners. A process for requesting, reviewing, selecting, disbursing, and tracking of dollars from the Habitat Maintenance Fund will be drafted and distributed to the Technical Work Group of the Steering Committee.

**Proposed FY11 Activities:** A total of \$5,359,500 is expected to be deposited into the three non-Federal interest-bearing accounts. The process for requesting, reviewing, selecting, disbursing, and tracking of dollars from the Habitat Maintenance Fund is expected to be finalized.
